## Slant Back Tire Carrier Kit

Spare tire carriers in their conventional, upright positions are a necessity for every Jeep, whether on the road or off. But when the terrain gets extreme and your standard hard top comes off, the Slant Back Tire Carrier Kit allows you to move your spare tire into an aggressive, 45° pre-runner position. Spare tires mounted with the slant do not interfere with Smittybilt's Cargo Restraint System (C.RES) or JK Bowless Tops.

- A** Designed for XRC Gen2 Bolt-On tire carrier part# 76857
- B** Designed for SRC Gen2 Pivot HD oversize tire carrier part# 2843
- C** Manufactured from 3/16-inch cold rolled steel
- D** Compatible with Rotopax® gas/water can and off-road jack mounts
- E** Rated for up to 37" tires
- F** Weighs 8 Lbs. Zinc hardware included
- G** 3-Stage textured matte black finish

### 3 STAGE TREATMENT

- Dual stage powdercoating
- Special "E-Coat" inside & out
- Acid dipped to remove impurities
